A GIGANTIC COAL COMBINE FORMED

To Operate Western Kentucky Mines,

WITH CAPITAL OF \$6,000,000

Based On Thirteen Shafts—
More Have Been Invited to Come In.

T. C. DU PONT TO BE PRESIDENT

Wilmington, Del., Feb. 15.—The formation of a gigantic coal corporation which will control practically the entire output of the Western Kentucky field took place in this city last night when after several unsuccessful conferences with Gen. T. Coleman du Pont, president of the dissolved "Powder Trust," representative Western Kentucky coal operators reached an agreement to consolidate their mines into one great corporation which is to be known as the du Pont Coal Company and will probably have its main offices in this city. Papers in the agreement will be drawn up at once, but will have to be ratified by the stockholders in each company.

The nine owners here are W. G. Duncan, of Greenville, owner of the W. G. Duncan Coal Company; Judge W. A. Wickliffe, of Greenville, representing the W. L. Wickliffe Coal Company; J. W. Lamb, of Greenville, of the Hillside Coal Company; R. P. Carey, of the Caldwell Coal Company; W. W. Simmons, of Memphis, representing the Broadway Coal Company; and Shelby Gish, one of the largest individual coal property owners in Kentucky and the chief figure in the consolidation.

The mines which will be taken over by the new company are the Luzerne and Graham mines, capacity of 3,675 tons per day, owned by the W. G. Duncan Co.; Powderly and Martwick mines, 1,750 tons per day capacity, owned by the W. A. Wickliffe Company; Broadway coal mine, with a capacity of 1,000 tons per day, owned by Broadway Coal Company; Hillside, Oakland and Dovey mines, of the Hillside Company, 1,000 tons capacity per day; Central, McHenry, Render and Echols mines, of the Central Coal & Iron Company, owned by Gen. du Pont, with a capacity of 3,500 tons per day, and the Browder and Radam mines, of the Caldwell Coal Company, with a capacity of 1,600 tons per day.

These mines are situated on the Illinois Central and Louisville & Nashville railroads, and are the largest in Kentucky, the Luzerne mine being the largest on the entire system of the Illinois Central railroad. In addition to these mines twenty-one others probably will be taken over, as their owners were communicated with by wire and may have accepted the proposition. If this is done it will be one of the largest coal corporations in the United States. Gen. T. Coleman du Pont will be the president; the other officers have not been named.

The company will start business with a capital stock of \$6,000,000, which will be increased should all of the twenty-one mines be taken over. The deal, besides taking over the mines, includes thousands of acres of coal and timber lands which have not been developed.

S. J. Gish, who was the real promoter of the consolidation, said tonight that the mines would be taken over as fast as details could be worked out.

"It will be the purpose of the du Pont Company," said Mr. Gish, "to furnish a steam coal to the entire South and Southwestern market. Our mines will have a capacity of over 700 railroad cars per day, and we intend to make the company the largest in the United States. In all probability coke ovens will be built."

"The Western Kentucky field is the most uniform vein of coal in the world, and with the Panama Canal opening soon, the field has a great opportunity offered to it."

Mr. Gish has been working on the consolidation scheme more than two years. He recently acquired large gas properties in Kentucky. Associated with him in the consolidation are Daniel Canfield and L. L. Dunham, both of this city. The

HALE ENTERTAINMENT POSTPONED FOR A MONTH

The following in regard to the W. Powell Hale entertainment which was to have taken place at Dr. Hale's Opera House next Monday night, under the auspices of the Hartford College Lyceum Course, explains itself. It will be seen that it is simply a postponement, and that Mr. Hale, the celebrated impersonator, will appear here just a month later. The letter from the Colt people, who are Mr. Hale's managers, is as follows:

Cleveland, O., Feb. 15, 1913.
Mr. H. E. Brown, Hartford, Ky.
Dear Sir:—We regret to inform you of the necessity of changing the date for W. Powell Hale. This is his first date in our territory coming from the Southern Bureau, and we find they have booked him in such a place the Saturday preceding, that it is impossible, even with Sunday in which to travel, for him to reach you for the 24th.

We have therefore arranged with them instead of making your date the first one this season in our territory, that it will be his last one, just four weeks later, on Monday, March 24th.

Kindly make note of this and arrange to announce and advertise him for the 24th of March.

Yours very truly,
The Colt Lyceum Bureau,
By Arthur C. Colt, President.

WILSON WILL ANNOUNCE CABINET INAUGURAL DAY

Princeton, N. J., Feb. 15.—President-elect Wilson announced definitely tonight that he would not make public the names of his Cabinet until he sent them to the Senate for confirmation March 4.

"I will follow the old-fashioned method," he said, "and not make any announcement until the names of the Cabinet members are sent to the Senate."

Mr. Wilson's remarks were occasioned by the reports from Washington that he would announce his Cabinet at once. He said there was absolutely no truth or authority for the reports.

Mr. Wilson, it is indicated, will ask the men to whom portfolios are offered, to regard the information as confidential. He believes also, it is said, that he ought not make any important announcements until he is actually President of the United States. A premature announcement from outside sources, however, it was admitted, may upset the Governor's plans.

The President-elect was asked if his policy of reserving announcement meant that he was still undecided as to the personnel of the Cabinet, and expected further suggestions.

"I certainly do intend to keep my mind open," he said, "until the last moment in a number of cases. I think the field of possible choices is as full as it possibly can be, but I must say that the number of men who have entered themselves has not been large."

SEEMS HE JUST COULD NOT BREAK INTO JAIL

Marion, Ky., Feb. 15.—Yesterday afternoon Knoch Fritts, aged 18, stepped into Judge Kortinsky's court and made the unusual request that he be put into jail. Fritts had just been tried on a charge of craps shooting, found guilty and fined \$24, which he was unable to pay and was released by the court pending good behavior.

After studying the matter over the young man returned to the court and told the Judge that he would rather pay the fine in jail now than at another time, and demanded that he be put into the custody of the jailer. Judge Kortinsky refused to do this. Fritts then left the courtroom to consult the lawyers in regard to his case, but met with no encouragement, the attorneys telling him that they knew of no law to force the Judge to incarcerate him. He is still a free man.

SLAY SICK MAN FOR HIS MONEY

Hickman Youths Charged With Murder.

GOT \$110 FROM THEIR VICTIM

Which He Had Saved to Recuperate His Health—
Bold Confession.

MOB VIOLENCE WAS FEARED

Hickman, Ky., Feb. 16.—Within a few hours after the body of John Ritchie was found to-day beneath a bluff overlooking the Mississippi river, here, with the skull crushed into a shapeless mass and the pockets of the man's clothing turned inside out, "Dick" Shelby, a 19-year-old boy, was arrested and an amazing story of a well-laid plot to kill and rob Ritchie was unfolded to the police. Popular feeling against Shelby became so great after the details of his confession became known that officers took the boy from jail this afternoon, drove to Fulton and at that point took a train to Paducah.

Hickman has been in a state of excitement throughout the day, for hardly had the news of the brutal murder spread than Shelby was arrested. His confession, implicating Jesse Hinton, of Burkwood, Ky., followed.

Ritchie's body was found two blocks above the business section of the city, on the bank of the river. His head showed twelve crushing blows with a fourteen-inch iron bar, with a heavy bolt on one end. The skull was burst in four places. After the man had been killed, he was robbed, and his body was then thrown over a thirty-foot bluff. It fell on the river bank, and beside it was found the iron bar which the slayers used.

Ritchie was an employee of the Mengel Box Company, at this place. He believed he was a victim of tuberculosis and had been saving his money, with which to go West. Shelby said that \$110 and a gold watch was taken from his body. A crowd gathered at the point where the body was found, and Shelby was among the number who gazed down at the slain man. When a purse was being made up to obtain bloodhounds to trace the murderer, Shelby was one of the first to contribute. He gave fifty cents.

Later in the day, officers learned that Ritchie was last seen with C. O. Shelby, who is known as "Dick" Shelby. They went to his room at his boardinghouse and found bloody clothes. He was still at the scene of the murder when he was taken into custody. He made no resistance and at once admitted that he had killed Ritchie.

Hundreds of persons pressed about and followed Shelby as he was being taken to jail. Behind bars, he was calm and his nerve was unshaken. He asserted at first that he had killed Ritchie in self defense, and in response to questions, declared that no one else was connected with the crime. Told that he probably would hang, he answered:

"Let them hang me, I don't care."

When officers showed Shelby that they had got more facts, the proprietress of the boarding-house at which Ritchie stayed telling the police that Ritchie had \$110 when he paid his bill last night, the boy weakened and gave the whole story.

Shelby said he and Hinton had been planning for the past two weeks to kill Ritchie. Hinton has not been here, but he and Shelby used the telephone and mail to frame their plot, he said. Hinton arrived yesterday afternoon, and at 8 o'clock last night the two lured Ritchie up the railroad track, and about two squares past the business section of the city, murdered him.

The boy told the police that he and his accomplice intended to throw the body into the river, but the body lodged at the water's edge. He said he had gotten \$55 and a watch and Hinton had taken \$55 in gold. He told the police that the money he had obtained was under a plank in a building at his boarding-house. The money was found at the place designated.

Ritchie's hands were bruised and skinned, indicating that he had tried to ward off the blows of his assailants directed at him, and put up a strong fight for his life. His slacker coat was taken off and searched, as also was his coat. When the body was thrown over the bluff, the face struck first and was badly crushed.

Shelby's confederate is said to have departed on an early train this morning. His arrest in Mayfield was reported, but the news lacked confirmation.

Police officers, fearing mob violence, in face of the open threats heard against Shelby by Ritchie's friends, were afraid to leave the boy in the jail over night, and decided to take him to Paducah for safe keeping.

Arrive at Paducah.
Paducah, Ky., Feb. 17.—Deputy Sheriff W. O. West arrived here at 1:30 this morning from Hickman, Ky., with C. O. Shelby, charged with having murdered John Ritchie. He was placed in the county jail for safe keeping.

EQUITY MEN OF COUNTY
SELECT TOBACCO OFFER

At a meeting of the Ohio County Union of the American Society of Equity at Hartford last Friday, the proposition for the sale of 1,000,000 or more pounds of Ohio county tobacco, delivered in Hartford, was rejected. There were about 200 members in attendance and the session lasted several hours.

The meeting was presided over by County Chairman L. B. Tichenor, and H. M. Pirtle acted as secretary. The Finance Committee presented a report of the offers made for the Ohio county pool. The officials stated that the prices offered did not come up to those offered at other points in the district for the Equity tobacco. The buyers claim that a portion of the Ohio county crop does not grade up to the tobacco in other counties and is not worth so much. It is generally admitted, however, that the Ohio county crop, as a whole, is above the average in other counties. The Equity officials in Ohio county say that the action taken Friday will serve to hold up all of the Equity sales in the Green River district. It is known that a great quantity of the Equity tobacco in Davless county has already been delivered in Owensboro.

There has been no Equity tobacco delivered in McLean county and very little of the Hancock county Equity tobacco.

ALL OF GOV. WILSON'S MEASURES ARE PASSED

Trenton, N. J., Feb. 14.—Gov. Wilson's seven anti-trust bills passed the Senate Thursday. All of the bills received at least fourteen votes—those of the twelve Democrats and of two Republicans.

Only three of the bills were seriously opposed, the others going through practically unanimously.

The three bills opposed were the main bill, which defines trusts, prohibits acts calculated to create monopoly and makes a violation of the provisions of the bill a misdemeanor; the bill to prohibit the formation of holding companies and prohibiting existing corporations from acquiring additional stock of other corporations except in certain stipulated instances, and the one prohibiting merged companies from acquiring stock of other corporations.

No serious opposition to the bills in the House is anticipated and they are expected to pass that body next week.

BECOMES HIDE AFTER A FIFTEEN YEARS' WAIT

Evansville, Ind., Feb. 15.—When his proposal in marriage was refused by Miss Maude Jackson because he didn't own a farm, Robert W. Parr asked her if she would wait for him. She gave her word, saying she would. To-day he came back from Freeborn, Minn., carrying the deed to a big tract of land in his pocket. Miss Jackson was as good as her word. They were married this morning at Englefield, the girl's home. He is forty and she is thirty-nine years old.

DUAL LIFE LED BY AMOS ADAMS

Central City Man Tracked and Arrested.

IS ACCUSED OF SAFE-BLOWING

Was Considered One of City's Most Respected and Honest Men.

HAD FLED TO MOUNTAIN TOWN

Central City, Ky., Feb. 15.—Chief of Police Langley returned to-day with Amos Adams, one time a citizen of Central City, who nine months ago blew open the safe of the Wallace Hardware Company. He is charged, and skipped for parts unknown. Adams was one of the most respected citizens, being considered an honest man. He had borrowed money from the banks, run accounts, but met all debts promptly.

The night on which the safe was blown open was a rainy one, and Adams was tracked by a pair of gum boots which he wore. Chief Langley, never suspecting that Adams was the man, went to his door to make inquiry, and on account of the answer given by Adams' wife, became suspicious and searched the barn, where he found burglars' tools and the gum boots. In a well was found burglar's keys which opened every store in town.

Adams walked twenty miles in the rain, boarded a freight car and went into the mountains, finding work at Corbin, in the mines. After a month he returned for his wife and two children and with them walked in the night in a pouring rain to Nelson, where they took the train for Harlan. There they started a soft drink stand, the income from which was so great that at the present time they were running the largest hotel, restaurant and grocery in the town.

Adams wrote to an installment furniture house for goods, giving Central City as his former home. The house wrote to Central City business men for reference, and Chief Langley, ever on the alert, got wind of it and went for his man. Entering Harlan in plain clothes, he stopped at a small boarding house, making inquiry for Adams. The latter was going under an assumed name, but the party from whom Langley was seeking information immediately recognized him from the description given, the proprietor of the best hotel in the town.

Langley slipped up to the hotel, found Adams and wife in the restaurant. The wife screamed and fell fainting to the floor. Adams, upon the request of Langley, held up his hands and went quietly to jail, the wife, who had recovered, and the children following in the rear and arousing the entire town with their screams.

Adams asked permission to secure his hat from the rear room, which was promptly refused. Chief Langley, having been warned that he was a dangerous man, Marshal Britton placed the hat on his head and told Langley that always in the restaurant Adams had in full view two loaded revolvers. Langley left with his man on Friday, and as he passed through town, Adams lowered the blind of the coach so that his old acquaintances could not see him. He was placed in the Greenville jail and will have his trial at the next term of court. He denies nothing.

The partying with the wife was pathetic, he telling her to remain and conduct the business, that everything was paid for except \$13 worth of groceries, on which she had thirty days. The wife clung to the husband through all his career, although she knew the life he was leading. He is thirty-three years old, and she is twenty-one. He married her in Central City, when she was about thirteen years old. She was the daughter of John Adcock, of this city.

Some excitement was created in Hartford Sunday night about 8 o'clock when the soot caught fire in one of the chimneys of Mrs. Hubbard's residence, corner of Union and Mulberry streets. Flames shooting from the chimney made a big torch and the city's fire-fighters responded promptly, as usual. A few dippers of water thrown on the grate fire below and up the chimney

created steam which soon drowned the fire out and there was no damage done.

Prof. Ozna Shultz, Beaver Dam, Route 1, candidate for School Superintendent; F. M. Allen, Centertown; J. H. Igleheart and wife, Centertown, R. 1; Lon Smith candidate for County Court Clerk, Hartford, Route 6, and L. T. Parks, Beaver Dam, Route 1, were among The Herald's callers yesterday.

The Frankfort State Journal says: "Sheriff T. H. Black, of Ohio county, secured his quietus from the State Auditor yesterday, making the sixty-first sheriff to settle this year for all the taxes in his county. Last year one-half were in February 14. The sheriffs have until March to make their settlement."

Barnes, Hartford, Route 2; W. J. Maden, Hartford, Route 1, and Crit Martin, Beaver Dam, were among The Herald's callers Friday.

Master Cleveland Her, Jr., mention of whose serious illness was made in these columns last week, is very much improved and will soon be convalescent. A specialist, Dr. Burchett, of Louisville, and the local physicians, after consultation, decided not to operate on him and to the delight of all, Master Cleveland has been relieved of the symptoms of appendicitis without the use of the knife.

She leaves a daughter, Mrs. Maddox, a sister and a brother, Mrs. J. L. R. Maddox, near Rockport, and Mr. Wils Render, of Butler county, Ky.

Mr. John G. Keith, of Horse Branch, announces in this issue of The Herald for the office of Jailer of Ohio county, subject to the action of the Democrats at the general primary to be held August 2, 1913. Mr. Keith is a staunch Democrat and has for many years been a good party worker and he is well qualified for the position he seeks. We bespeak for him a good following in his race for Jailer.

Mr. Jesse R. King died at his residence corner of Union and Mulberry streets, Hartford, last Friday, after an illness of over three months, which started with typhoid fever and developed into pneumonia and complications. He was born near Pleasant Ridge, this county, about fifty years ago, and lately was a well known teamster. He leaves a wife and two sons, one brother, and two sisters. His remains were interred in the Ashley burying grounds, near Mt. Moriah, Sunday morning, under the auspices of the Odd Fellows and M. W. of A. lodges. Funeral services were conducted by Rev. R. D. Bennett, of Hartford.

NAMES WHAT IT TAKES TO RUN A NEWSPAPER

Many Things Besides Money Constantly Employed In the Business.

In a recent article commenting on the efforts of various organizations to secure free publicity, an Illinois editor made the statement that it took money to run a newspaper. Many other editors are laboring under a similar delusion, and for the benefit of this class, Thomas W. Maynor, publisher of the Record, St. Anne, Ill., puts the following:

"It takes money to run a newspaper? O, what an exaggeration! What a whopper! It doesn't take any money to run a newspaper. It can run without money. It is not a business venture. It is a charitable institution, a begging concern, a highway robber. The newspaper is a child of the air, a creature of a dream. It can go on and on and on, when any other concern would be in the hands of the receiver and wound up with creditors in the shadows."

"It takes wind to run a newspaper. It takes gall to run a newspaper. It takes scintillating, acrobatic imagination, half a dozen white shirts and a railroad pass to run a newspaper. But money, heavens to Betsy and six hands around, who ever needed money to conduct a newspaper? Kind words are the medium of exchange that do business for the editor—kind words and church social tickets. When an editor has money, watch him. He'll be paying his bills and discharging his profession. Never give money to an editor. Make him trade it out. He likes a swap."

"Then when you die, after you have stood around for years and sneered at the editor, his poor family and his little Jim Crow paper, be sure you have your wife send for three extra copies by one of your weeping children, and when she reads the generous and touching notice about you, forewarn her to neglect to send the editor fifteen cents. It would overwhelm him. Money is a corrupting thing. The editor knows it, and what he wants is your heartfelt thanks. Then let him thank the printers and they can thank the grocers. Give your job work to a traveling man, and then ask for half rates or free space for church notices. Get your lodge letter heads and stationery out of town, then flood the editor with beautiful thoughts in resolutions of respect and cards of thanks. They make such splay reading, and you are so proud of your local paper when you pick it up, filled with these glowing mortuary articles."

"But money—scorn the filthy thing! Don't let the pite, innocent editor know anything about it. Keep that for scold trades people who charge for their wares. The editor gives his bounty away. The Lord loves a cheerful giver. He takes care of the editor. He has a charter from the State to act as a door mat for the community. He will get out the paper somehow, and stand up for the town and whoop it up for you when you run for office. Don't worry about the editor—he'll get on. The Lord knows how—but somehow."

RURAL CARRIER KICKS ABOUT THE PARCEL POST

The rural mail carriers as a rule are not pleased with the parcel post law, and the department at Washington is hearing from them in the way of loud and long knocks. A certain carrier registered his complaint in the following to his Congressman: "I sent myself with pen in my hand to write you a few lines to let you know that you have played the devil with me. When I took the contract to carry the mail the express company was doing a pretty good business, and I got 10 cents for each express package and 10 cents and a drink for every jug. You fixed the law so I couldn't carry the jug, and now you have fixed up a thing called the possum post law, and the ex-

press company don't handle any more packages. When I made this trade to carry the mail I didn't know anything about the damned foolishness of sending farming implements through the mail. I ain't a man to quit his job, but I have got to have some help."

CHILDREN BARLEY OUT OF CRADLE EMPLOYED

In New York Factories—A Three-Year Old Laboring In Big Cannery.

Albany, N. Y., Feb. 14.—How children of tender years slave for hours in canning sheds, with their blistered fingers wrapped in rags; how they likewise toil in tenements, making toys, flowers and plumes, and how women toll sometimes for mere pittance in industrial establishments in this State, is graphically described in the report of the New York State Factory Investigating Commission, submitted to the Legislature to-day.

The report says cannery operating in the rural districts have never played the State child labor law "because they never have had to." "The employment of mere babies," the commission holds, has been the result, and it adds that of 1,259 children found at work in thirty-three sheds, the oldest was 14 and the youngest 3.

Many of the canners, the report explains, are opposed to the employment of children, and half of them do not resort to it, but "as the canning industry is largely devoted to exploitation of foreigners, the parents of the children make them work."

Of women workers the report says:

"No woman can work from sixteen to twenty-one and one-half hours a day for weeks, in some cases even months, without permanent injury to her health. Yet women are doing just this thing in the up-State canneries, in binderies and other factories, and in the shops during the six-weeks Christmas rush. In the large canneries the work keeps up pretty regularly during a season of four or five months. A week of eighty-five to ninety-four hours, and in one case 119 1/2 working hours, is not followed by a week of comparative rest, but by another almost as bad. And the pay averages 10 cents an hour."

The commission recommends the creation of an industrial board with power to make regulations to fit every industry.

No Need to Stop Work.

PROGRESSIVE IDEAS OF OUR NEXT PRESIDENT

"We are in the presence of a new organization of society. Our life has broken away from the past. We have changed our economic conditions, absolutely, from top to bottom; and, with our economic society, the organization of our life. The old political formulas do not fit the present problems; they read now

like documents taken out of a forgotten age. . . . The life of the nation has grown infinitely varied. It does not center now upon questions of governmental structure or of the distribution of governmental powers. It centers upon questions of the very structure and operation of society itself, of which government is only the instrument. A new economic society has sprung up, and we must effect a new set of adjustments. . . . Our laws still deal with us on the basis of the old system. The law is still living in the dead past which we have left behind."—Woodrow Wilson in current issue of World's Work.

Which Shall It Be?

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn out cook stove?

You know that old stove eats up a lot of fuel each year.

You know you have trouble in getting it to bake just right in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure.

Wouldn't it pay you to buy a good range—a range with a reputation—

The Great Majestic Malleable and Charcoal Iron Range?

You make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos board—parts being malleable can't break—has a movable reservoir and an oven that don't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (brown bread just right all over without turning), heats 15 gallons of water

while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 800 per cent stronger than other ranges where most ranges are weakest.
